

Frame Care

We always find a solution

Did you just close another sale??

Have you considered providing the extra service of offering your customer to have the old broken ones repaired to keep as a spare?

You might just nail that extra loyalty that secures repeat sales...

Genuine spare parts

Frame Care is now able to source spare parts for a number of brands as part of our repair service. In some cases it is more viable to replace a part than to attempt a functional repair. Should this be the case with a repair you have sent to us, we might simply go ahead and replace the part. If it turns out we need to order parts resulting in a delay, you will be consulted before any decisions are made.

Brands include:
